

It's Time to Order Your Chickens!

Maggie's Broilers raises Cornish Cross chickens in a manner designed to mimic the natural process of chicken growth. The birds receive no growth hormones and live in an outdoor, natural setting. While living outdoors in moveable pens on pasture, the chickens have access to fresh air, insects, grass and other aspects of their environment. The birds are processed on-site in a clean fashion, with the feathers and innards removed so that no trace remains. The birds are then rinsed and chilled in cold well-water and packaged for customer pick-up. Chickens can be picked up fresh on processing day, or frozen for a convenient pick-up time.

We offer both whole and pieced chickens. Price for 2017 is \$3.50/lb. This year there will be a large variety of weights – 5 to 9 pounds – so you can choose the best size for your needs! Piecing is available at \$7.50/bird. Each pieced chicken produces 2 legs, 2 thighs, 2 wings, 2 breast fillets, 2 tenderloin strips, and 1 back/neck portion, all to be packaged per customer order for smaller, more convenient meals.

Quantity is limited, so be sure to contact us soon to reserve your chickens!

Feel free to contact me with any questions you have about the chickens, the farm, or other related produce you may be interested in. Or if you just want to come see the farm!
